## Commissioner for Patents

The sequence listing, filed in computer readable form (CRF), has been received 15 August 2005 and entered. However, this application contains additional sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 C.F.R. § 1.821(a)(1) and (a)(2) but which are not found in the sequence listing as filed. Thus, this application fails to fully comply with the requirements of 37 C.F.R. § 1.821 through 1.825; Applicants' attention is directed to the final rulemaking notice published at 55 FR 18230 (May 1, 1990), and 1114 OG 29 (May 15, 1990).

The amendments to the specification filed 22 February are acknowledged. Applicants have amended the specification to add SEQ ID NOs: 18, 19 and 20. However, said sequences are not found in the sequence listing and Applicants have not filed a new sequence listing with the corresponding additional sequences. Applicants are thus required to furnish a new electronic and paper copy of said sequence listing with an additional amendment which indicates that said paper and electronic version are the same and which also directs entry of the sequence listing into the specification.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821- 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an application extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
